

Product: Reusable, collapsible Clip-Lok box for rifles

- Specifications**
- Custom designed dunnage protects, supports and secures the rifles.
 - Robust straps allow easy lifting and carrying.
 - The boxes can be stacked on top of each other without the need for racking.
 - When not in use, Clip-Lok boxes can be quickly and easily flatpacked. This reduces costs and reduces volume by up to 75% on return shipment and storage.
 - The Clip-Lok box can be reused – typically over 100 transports with normal handling.

Robust straps are firmly attached to the box for easy lifting. Expert craftsmanship and finishing work ensure that the box will hold up under many return transports.

Four rifles are secured within the box for safe transport. The rifles will be sent with a calibrated scope mounted in place. Custom fitting and weatherproof construction protect the rifles and eliminate the need for recalibration upon arrival.

Precision cut-outs keep the rifles in place even under rough transport.

The top panels are held in place by the lid during transport. When the box is open, the panels lift off for quick access to the rifles.
