

Product: Clip-Lok Soft-Rack System for fragile and sensitive parts

- Specifications:**
- The Soft-Rack is provided with an integrated fabric rack system
 - The fabric rack stores sensitive parts, e.g. painted parts, without need for extra packaging
 - The Soft-Rack works well in lean manufacturing as the operator has immediate access to the parts. The system keeps up the speed in the manufacturing process
 - The rack system folds into the box when it's collapsed
 - The Clip-Lok box is easy to handle by forklift
 - They can be stacked on top of each other without the need for racking
 - When not in use Clip-Lok boxes can be easily and quickly flatpacked to minimise storage space which can save costs up to 75%
 - The Clip-Lok box can be used time and again

The fabric rack stores sensitive parts, e.g. painted parts, without need for extra packaging

The Soft-Rack box can be opened quickly by the operator who gets direct access to the parts without any further interference.

When the box is not in use the fabric rack folds into the box without taking unnecessary space.

When the box is flatpacked it can be returned for re-packing or placed in storage
