

The Dual Purpose Shower Box

for use in camps

Functional transport box

Clip-Lok has developed **The Dual Purpose Shower Box** which functions as both a transport box and shower. The Dual Purpose Shower Box is designed to be used for shipping equipment to camps, and it can then be quickly and easily converted into a shower. It immediately fulfills the needs for personal hygiene.

The box is fully packed and ready for shipment

Fully equipped

The box is fully equipped with a super solar shower which provides hot water for showering. To avoid slipping, an anti-slip platform of stainless steel is placed on the base. The platform also ensures that disposal water is drained away from the cabin. The box offers privacy and can be locked from the inside.

The solar heated water container is placed on top of the box

The hygienic platform is placed in the bottom of the box, ensuring water is lead from the cabin

Fully functional shower placed where suitable

Clip-Lok Shower offers

- Privacy
- Personal hygiene
- Reduced space and weight
- Secure transport of equipment
- Easy handling

Clip-Lok Dual Purpose Shower Box

SA Patent Application No. 2008/08322

Clip-Lok Group

The Clip-Lok Group is a global network of packaging companies that cover marketing, sales, client liaison and manufacturing on five continents.

We manufacture a cost-saving, re-usable packing system, tailor-made for each assignment. The system is carefully managed by our engineers in co-operation with our customers, and we are dedicated to protecting the environment by using environmentally friendly materials and by manufacturing re-usable boxes.

Our high quality Clip-Lok boxes can be used time and again. They are tested and built to withstand vibration, stacking, impact and pressure. Goods shipped in a Clip-Lok box is well protected.
