

Clothing - transport, packing and storing of working overalls

Above: Overalls for Rie Design Aps: the shelf prevents creasing of clothing on the bottom and removable panels facilitate easy packing.

Stackable and effective packaging to facilitate the movement of goods between the workrooms, storage and production. Half-panels and shelf separators play a large part in making this system highly efficient, saving time and money.

Country: Scandinavia

Below: Clothing for Fristads Ab: boxes with half-panels which can be removed easily to allow for packing from top and front.
