

Product: A multifunctional, reusable, Clip-Lok transport box for Televisions

- Specifications:**
- The Clip-Lok box is designed to function as both the transport box and TV table
 - The table is stored in the Clip-Lok box and assembled with clips and top panel
 - The TV is protected by foam dunnage which securely cradles it during transportation
 - The table is stored in the box separately from the TV
 - The Clip-Lok box can have wheels fitted so that the box is easy to wheel about
 - The box can have handles attached to the sides to facilitate it to be lifted easily
 - The Clip-Lok box is quick and easy to load and empty and can be reused time and time again

TV loaded in the box. The box can be opened from the top or side. Wheels attached for easy moving

The table is stored in the back of the box, separated with a panel so it has no contact to the TV

The foam dunnage on which the TV rests is fixed to the base and ends. It allows the side to be removed while the TV is still safely secured in the foam.

The TV table is assembled with clips and the top panel from the Clip-Lok box.
