

Clip-Lok one-way box for a filling machine.

This Clip-Lok OSB box is tailor-made for packing highly sensitive filling machines. The box uses the Clip-Lok QIK Plastic clips to ensure a tool free packing process. The webbing protects the filling machine against insects and the air vents ensure the filling machine does not get too hot during transit.

Clip-Lok boxes:

- provide an opportunity to store the packaging and send machinery for calibration or repairs, if needed.
- are ideal packaging for lean manufacturing.
- can be stacked without the need for racking.
- can be easily and quickly packed without any tools, thereby increasing efficiency.
- allow 4 way handling due to an integrated pallet base.
- can be easily and quickly flat-packed, reducing transport and storage volume by up to 80%.
- are suitable for transport by road, rail, sea or air.

The Clip-Lok OSB box for filling machines flat-packed with all dunnages inside the box.

Clip-Lok OSB box assembled with filling machine ready for transport.

Strategically placed air vent to control heat inside the box during transport.

Inspection hole on the side for custom checks for easy custom clearances. The Clip-Lok QIK Plastic clips showcasing ease of use and creating a tool free environment.
