

Clip-Lok returnable transport box for the expensive flood protection barrier units.

The Clip-Lok returnable box is tailor made for the flood protection barrier units. It contains airing and drainage holes to provide a dry environment. Our boxes can be flat-packed and are easy to use. We have printed illustrations on the pallet base to reduce errors on the shop floor for loading the products. Our boxes also permit the packaging to be built around the product, thus making it easy and efficient for the operators.

Clip-Lok boxes:

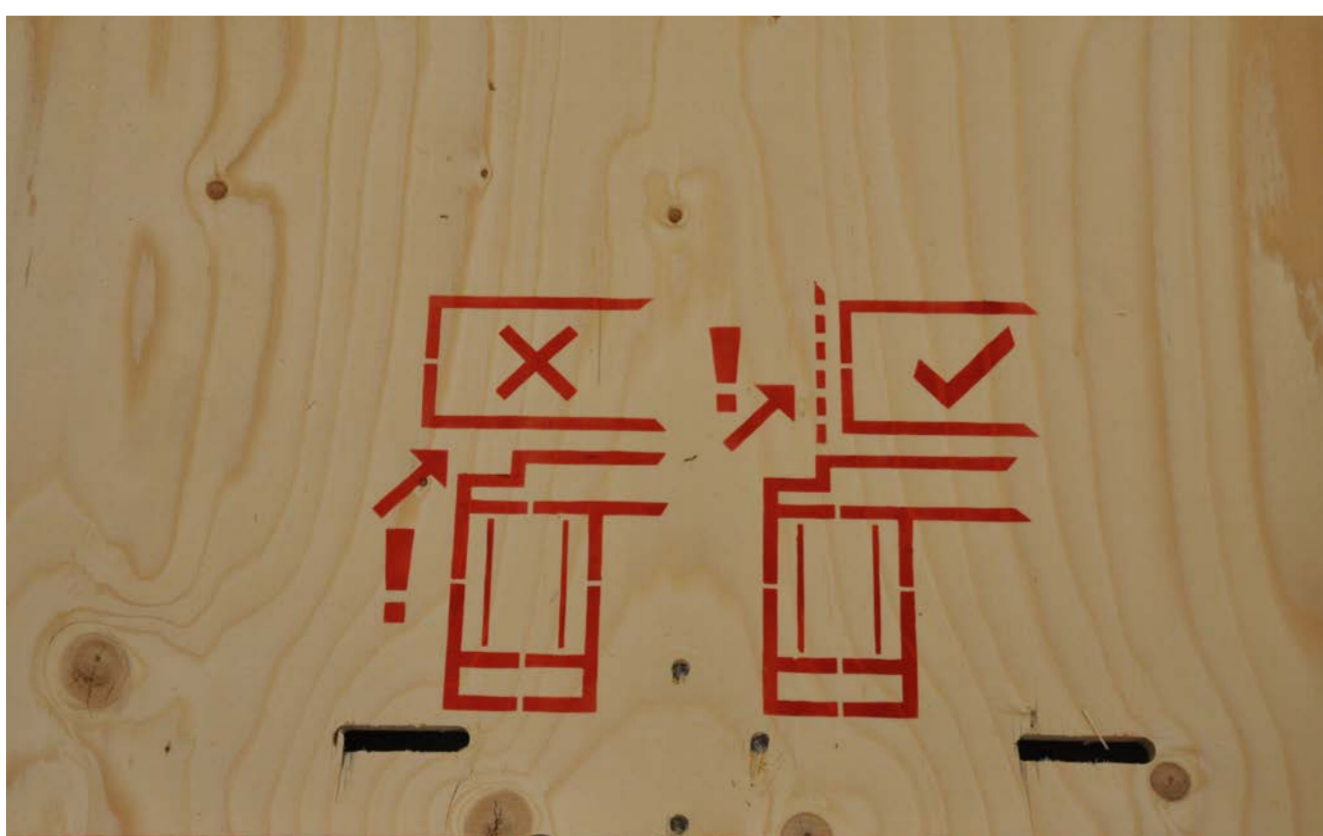

- are tailor made to suit needs of the customer.
- are ideal packaging for lean manufacturing.
- can be stacked without the need for racking.
- can be built around the product.
- can be reused - typically over 100 transports with normal handling.
- can be easily and quickly flat-packed, reducing transport and storage volume by up to 80%.
- are suitable for transport by road, rail, sea or air.
