

### Clip-Lok's collapsible one-way box with plastic clips for exhibition material

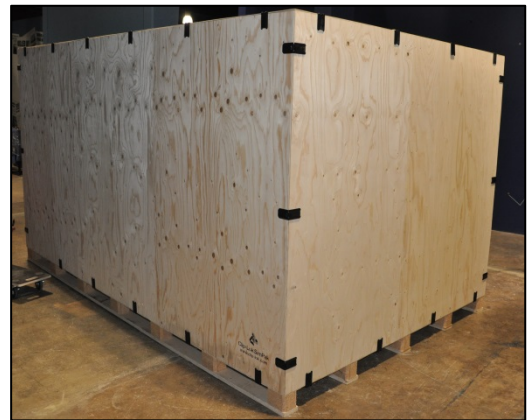

The unique design enables the users of this box to pack and un-pack the large and small exhibition materials in a simple, safe and efficient manner. The customized interior design of the box optimizes the number of products which can be packed and stored in the box.

Clip-Lok boxes:

- are built with walk-in construction for best possible ergonomics
- can be customized to withstand a pressure of up to 15 tonnes.
- can be easily and quickly flat-packed, reducing transport and storage volume by up to 80%.
- are a good solution for large and bulky loads.
- are suitable for transport by road, rail, sea or air.

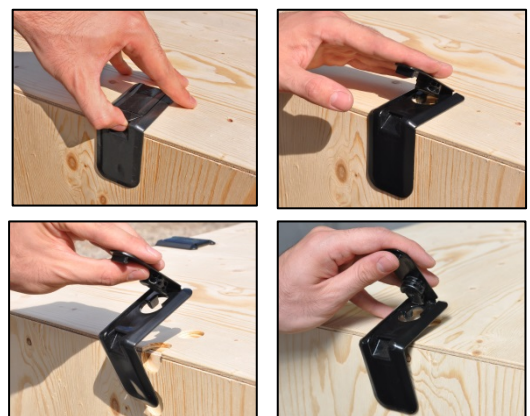

There are clear and unique markings for easy and precise packing

The custom designed plywood box is strong, providing better support and security to the materials than cardboard.

The custom designed plywood box is built with walk in construction for best possible ergonomics. It thus provides an easy solution to load large and bulky products.

The Clip-Lok QIK Plastic Clips are the easiest & simplest solution available in the market to assemble & disassemble a box.
