

Clip-Lok reusable and collapsible box for sensitive plastic film rolls.

This cost-saving reusable box can hold 2 plastic film rolls in 4 different sizes. The box is designed in a way that it does not flex when picked up from the center. The dunnage at the end of the wooden board keeps the roll above the surface providing excellent protection. The box dimensions are highly optimized for transport in containers and trailers.

Clip-Lok boxes:

- protects, supports and secures the sensitive rolls through customized dunnage.
- allow easy loading and unloading of the roll as the top and sides of the box are removable
- can be customized to withstand a pressure of up to 15 tonnes.
- can be easily and quickly flat-packed, reducing transport and storage volume by up to 80%.
- can be reused - typically over 100 transports with normal handling.
- are suitable for transport by road, rail, sea or air.

The box is loaded with all four sides removed. The box can custom designed fit different roll sizes.

The dunnage at the sides of the wooden panel keep the rolls stable and is designed to fit rolls of different sizes

The box is almost packed and ready for shipping. Smooth surface of the boxes, no nails and customized dunnage system ensure safety of roll while they are in transport .

When the Clip-Lok box is packed and fork lifted from the center the box does not show any trait of flexing at the ends.
