## Re: Clip-Lok Liquid Box 1 000 liter

We have the pleasure to confirm that we have used the collapsible and re-usable 1 000 liter Clip-Lok Liquid Box system since March 1990.

Today we have 115 containers with the external dimensions according to EUR-Pallets:

1200 x 800 mm with a high of 1300 mm

They circulate between our customers in Sweden and Denmark and our factory in Stockholm. In February we are taking deliveries of additional 100 Liquid Boxes to be used for shipments to Germany.

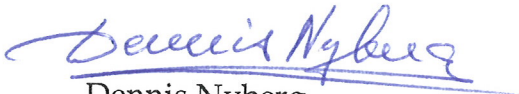

A lot of our Clip-Lok boxes have circulated more than 10 times and are still in use.

The maintenance costs are very low. The average maintenance cost per trip is 0,2%.

Thank you for good co-operation.

Yours sincerely

AROMATIC AB
