**Att.: Anders Lassen**

We have the pleasure to confirm, that we for app. 3 years have used Clip-Lok for transport of coated aluminium tubes to our customers within the automotive industry, primarily in USA.

We use boxes with dimensions ranging from

1200 x 800 x 916 mm  
to  
5600 x 514 x 514 mm

We chose Clip-Lok because it offers the following strong advantages – even for boxes with the length of 5.600 mm:

- Compact and stiff construction. This reduces the risk of transport and handling damages to the tubes.
- Very easy to build up.
- Very easy to open and flatpack for our customers.
- Re-usable.

We look forward to a continued good corporation.

Yours faithfully,  
Hydro Aluminium Hycot a.s
