To whom it may concern

Sapa in Tønder, Denmark has since 1998 used the Clip-Lok system for shipping aluminium tubes to our customers in the automotive industry.

In circulation we have boxes with the following dimensions and made in 12mm as well as in 18mm plywood:

- 1200x800x922mm
- 1200x800x522mm
- 789x626x682mm
- 2286x800x522mm
- 1846x800x724mm

We have several thousands Clip-Lok boxes in circulation, and the boxes are used in average 10 times per year. Many of the boxes has been used 100 times or more

When the boxes are not in use, we store them outside at any time of the year, and the boxes do not fall apart and loose its value.

We reckon that our service and maintenance factor is app. 1% per use.

We are very satisfied with the system and can give Clip-Lok our recommendations.

Yours sincerely
Sapa Precision Tubing Tønder a.s
