

Clip-Lok SimPak[®]

Clips to be used for other products than
packaging ?

September 11, 2017. London

Clips to be used for other products than packaging ?MB

- Furniture – Needs marketing material and website
- Tradeshow crating

Clips to be used for other products than packaging ?GF

- Coffins
- Hard wall shelters
- Garden furniture
- Flooding protection(I understand AL does not want to step into this sector due to the gentleman agreement with aqf –however, it would make sense if we could let packiq test this in America for the reasons of non-compete with aqf, at least from clss side. Furthermore the frequency of perception has a tendency being higher in the Americas currently) If it works in America, we copycat if we judge it worth the risk.

Clips to be used for other products than packaging ?RT

- Medic equipment – one-way and return
- Building segments – final installation in the building, ready bathrooms, shower etc., return and one-way
- UN-approved solution for Lithium batteries – more need in future

Clips to be used for other products than packaging ?RT

- Skater ramp – the key is ease of assembly
- Play house with advantageous features other than clip assembly method.

Clips to be used for other products than packaging ?PK

- Use Clip-Lok QIK Plastic Clip to build plastic boxes which be a non-fibrous solution.
